

Dear sirs:

When Spencer and I walked the site in late October we were Wondering if the draw near the proposed site was a wet land and what the set,back requirement were.

Spencer called me the next day saying set back is 150 feet.

On November 23 I revisited the site to meet the builder.

He had a plot plan that was signed and stamped by a wetland soil scientist Peter Schaver this was the same plot plan that the building inspector showed me on November 29.

The new building will be outside of the 150 foot setback line on the plot plan.

Sincerely yours

*Felix P. Sallavio*
