Hello Michele -

I writing to ask you to reject the plan for the asphalt plant in Wilton.

The amount of toxins that will be released from the plant are a very serious concern for the environment.

My daughter grew up in Wilton and spent many summers at Goss Park where she was on the swim team.

I hope you will preserve the environment around this area and keep it safe from the toxins emitted by the plant.

This will allow future generations of young residents of Wilton to swim safely and enjoy their summers there without undue concern on the part of their parents.

Protecting our streams and rivers as well as the water supply is a critical environmental issue now.

Please do your part in this now by rejecting the asphalt plant.

Thank you for your consideration.

A

Hello!

Thank you for your email. I will add this to the correspondence for the Zoning Board of Adjustment file for tonight's meeting.

Sincerely,
Michele
