I have enjoyed living in Wilton for 30 years. The rural beauty of this town deserves protection. The risk of allowing an asphalt plant to ruin the beauty with foul smells, noise, truck traffic and pollution is unimaginable.

The five criterial required to grant a variance are in conflict with this proposal. This would certainly be against public interest as seen by the outpouring of concern in this community. My property value would be diminished with the noise, smell and traffic in my neighborhood.

The height regulation has been in effect for 45 years to protect our town from this type of industry. It is your responsibility to enforce this provision in support of the spirit of the Town's Master Plan.

I implore each of you, Mr Faiman, Ms Eckstrom, Mr Hoar, Mr Levesque, Mr Stone, Mr Howd, and Mr Spear to respect and enforce the regulations in place to protect our town and deny the variance.

I am against the approval of the variance for an asphalt plant in Wilton

Respectfully,
