Hi Caryn- just wanted to provide this in order to clarify :
definition found on New Hampshire Department of Health and Human Services:

Family Group Child Care Home

A child care program operated in a home in which the provider resides. In a family group child care home one provider and one family child care worker or assistant may care for 7 to 12 preschool children plus up to 5 children enrolled in a full-day school program. The number of children younger than 36 months of age that may be cared for is limited.
