September 12, 2021

To Whom It May Concern:

In 2019 Granite State Forestry Services, Inc. administered a timber harvest for David Deysher on his lot 47-1. The timber harvest removed as close to the 50% basal area of trees as possible for the 20 year period. The timber harvest used best management practices and was handled by a NH licensed forester.

Sincerely,

Eric Oxman
NH licensed forester #470
