- DATE:** August 13, 2019
TIME: 6:30 PM
PLACE: Lot C-85, 38 Wilton Center Road
PRESENT: Joanna Eckstrom; Jeff Stone; Paul Levesque; Peter Howd (Alternate), Neil Faiman
Absent: Andy Hoar
Attendees: Carl Foley (Fieldstone)

N. Faiman opened the Site Walk at 6:30 PM. He reviewed the guidelines for a Site Walk for Case #7/9/19-3.

C. Foley reviewed the driveway site plan. He reviewed the location of the proposed driveway, pointing out the wetland crossing, the emergency vehicle pullout and the terminus at the proposed house site. The driveway has been designed to meet Wilton zoning standards for a driveway of this length. He then led those present on a walk to the site of the wetland crossing and presented its design specifics, including a perpendicular crossing at the narrowest point of the wetlands and the culvert diameter (24 inches). N. Faiman documented the site with pictures. There were no questions.

N. Faiman adjourned the meeting at 6:35 PM.

Respectfully submitted by Peter Howd
